

Volunteer Now can provide your organisation with a FREE “Health Check” in relation to your volunteer management practice. By using the Investing in Volunteers framework, a trained assessor will benchmark your organisation against the standard and provide you with a development plan clearly outlining any areas for improvement/ gaps in practice and signposting to where you could get help to address them. All you have to do is answer a few questions, then sit back and await the diagnosis!

You can use your Health Check to plan your development and improve your volunteer management practice. It also means that, if you wish, you are just one step away from achieving the Investing in Volunteers award. If you choose to address your development plan within six months of the Health Check, we will offer to assess you for the Award at a reduced rate!

If you are interested in this opportunity, please contact **Sandra Faulkner** at **Volunteer Now** as soon as possible providing:

- The name and address of your organisation and geographic area covered
- A short summary of what your organisation does and how you involve volunteers
- A few lines on how a Health Check would help your organisation.
